

STEPS TO CREATING A BALANCED DOG

SOCIALISATION

Proper socialisation is a vital part of building a well-balanced dog. Socialisation is the most important key in preventing dog bites and aggression

TRAINING

Regular training provides your dog with a much needed mental stimulation while helping build a strong bond.

COMMUNICATION

Effective communication with your dog will make your expectations clear and eliminate confusion with your dog.

EXERCISE

Regular exercise will get rid of unwanted or excess energy that can lead to inappropriate behaviours, including aggression and biting.
